

COMPETENT OPINION

Yu.V.Khripunov

Educational environment presents
a grand challenge..... № 1, p. 8

L.L.Kolesnik

Development and manufacture of vacuum
Equipment – the large-scale task of the
modern domestic engineering..... № 2, p. 88

A.N.Alyoshin

Heidelberg Instruments and new Nano
department..... № 2, p. 94

S.A.Terentyev

X-ray and diamond optics. New materials and
Devices for technological breakthrough № 3-4, p. 168

N.A.Shelepin

MERI. More than semi-century at the
forward edge of domestic microelectronics..... № 5, p. 248

S.B.Tarasov

"Micro" – a quarter century in metrology.
Development and manufacture of exclusive
import substitutional domestic equipment № 6, p. 328

I.A.Rodionov

Records at the light level: how the
inventions of Russian scientists lied the
basis of the international breakthrough
equipment № 7-8, p.408

I.A.Rod

Role of educational projects in the activities
of a modern high-technology company № 7-8, p. 414

CONFERENCES, SEMINARS, EXHIBITIONS

A.N.Alyoshin

Climate-2020 exhibition: overview of
equipment for clean rooms..... № 2, p. 140

A.N.Alyoshin

Engineer 2020: at the joint of technologies,
design and entrepreneurship. Online
conference experience..... № 3-4, p. 174

The contribution of science to strengthening
the defense and security of our country № 5, p. 316

S.B.Nesterov

The best innovative products from
"VacuumTechExpo 2020" № 7-8, p. 420

CONTROL AND MEASUREMENTS

A.K.Rybakov, M.K.Vetryanshchikov, A.V.Gospodinov

Riboflavin test for washing/cleaning
validation of process equipment..... № 2, p. 144

**R.F.Kapustin, M.B.Tarasov, I.P.Pogorelsky, V.I.Khachko,
S.I.Tsybulnikov**

Biosafety of nanodrugs used in livestock and
poultry breeding № 2, p. 150

**V.V.Amelichev, D.V.Kostyuk, D.A.Zhukov, A.B.Shevchenko,
S.I.Kasatkin, O.P.Polyakov, V.S.Shevtsov, P.A.Polyakov**

Calculation of the transfer characteristic of
the anisotropic magnetoresistive magnetic
field transducer № 3-4, p. 230

A.G.Amanmadov

Measurement of silica nanoparticle sizes by
the dynamic light scattering and acoustic
attenuation spectroscopy methods..... № 5, p. 308

A.P.Fedotkin, I.V.Laktionov, E.V.Gladkikh, K.S.Kravchuk

Application of machine vision algorithms
for automatic Vickers microhardness
measurement № 6, p. 392

EQUIPMENT FOR NANOINDUSTRY

"PharmEngineering" – a full cycle to build
cleanrooms of any complexity № 2, p. 106

M.G.Mustafaev, D.G.Mustafaeva, G.A.Mustafaev

Element-technological and constructive
integration when creating microelectronic
instrument structures № 2, p. 108

**S.O.Belostotskaya, A.A.Lykyanov, A.S.Roslyakov,
A.N.Semyonov, R.A.Fedorov**

Reliability assessment of the one-
time programmable read-only memory
devices produced on the basis of jumpers
programmable with the use of the
electromigration mechanism (eFuse) № 2, p. 114

I.V.Yaminskiy, A.I.Akhmetova

High-speed atomic force and scanning capillary microscopy in solving problems of materials science, biology and medicine № 3-4, p. 222

"PharmEngineering" – a full cycle to build cleanrooms of any complexity № 5, p. 256

I.V.Yaminskiy, A.I.Akhmetova, Z.Wang

Integration of scanning probe microscopy methods and matrix optical superlenses technology № 5, p. 258

R.V.Kleymanov, S.E.Alexandrov

High performance aerodynamic nebulizer for liquid reagents based on the Laval nozzle № 5, p. 264

B.G.Turukhano, N.Turukhano, S.N.Khanov, Yu.M.Lavrov, L.A.Konstantinov, O.G.Ermolenko, V.V.Dobyrn, R.P. Sinelshchikova

Tests of high-precision spindles using LHIIS holographic nano-measuring systems № 6, p. 384

Z.S.Plieva, T.A.Smirnova, M.V.Zubasheva, Yu.A.Smirnov, V.G.Zhukovitskiy, A.I.Akhmetova, I.V.Yaminskiy

The structure of the appendages on spores of *bacillus cereus* № 7-8, p. 458

S.Yu.Udovichenko, A.D.Pisarev, A.N.Busygin, A.N.Bobylev

Biomorphous neuroprocessor – prototype of a new generation computer being a carrier of artificial intelligence. Part 1 № 7-8, p. 466

ISSUES OF PATENTING**I.A. Rodionov**

Technologies for creating plasmon nanolasers with unique characteristics are patented at the FMN Laboratory № 2, p. 158

NANOMATERIALS**M.Nasraoui, Yu.V.Litovka**

Chromium galvanic coating modified by graphene oxide № 1, p. 34

V.I. Lysenko

Production and properties of ceramics prepared from dioxide zirconium nanopowder by SPS method № 1, p. 40

A.A.Churakova, D.V.Gunderov

The structural features of TiNi nanostructural equiatomic alloy in multiple martensitic transformations № 1, p. 44

I.V.Yaminskiy, A.I.Akhmetova

Advanced Technologies Center: plans and innovations № 1, p. 54

A.K.Rybakov, A.V.Gospodinov

Validation of the compressed air production and distribution system № 1, p. 60

A.S.Useinov, A.A.Rusakov, V.I.Yakovlev, Ye.V. Gladkih

Study of the structural materials properties by instrumental indentation using a portable nanohardness meter № 1, p. 66

M.B.Tarasov, I.P.Pogorelsky, R.F.Kapustin, V.I.Khachko, S.I.Tsybulnikov

Biosafe nanostructured building materials with desired properties № 2, p. 136

A.V.Shvedov, V.M.Elinson, P.A.Shchur

Physical and chemical properties of carbon and fluorocarbon coatings obtained by PECVD at atmospheric pressure in a dynamic deposition mode № 6, p. 364

P.G.Kudryavtsev

Modeling of the properties of individual colloidal silicon oxide nanoparticles № 6, p. 372

A.V.Shvedov, V.M.Elinson, V.I.Kuzkin, V.V.Murnykina

Study of the absorption spectra of fluorocarbon coatings obtained with the aid of a LF-plasmatron at atmospheric pressure № 7-8, p. 442

A.V.Yakuhina, D.V.Gorelov, A.S.Kadochkin, S.S.Generalov, V.V.Amelichev, V.V.Svetukhin

Investigation of the side walls roughness effect of the Si_3N_4 lightguide layer of different thickness on optical losses in an integral waveguide formed on a quartz substrate № 7-8, p. 450

NANOTECHNOLOGIES**I.V.Yaminskiy, A.I.Akhmetova, G.B.Meshkov**

The use of scanning probe and capillary microscopy in international collaboration № 1, p. 16

V.N.Zelenkov, V.V.Potapov

Hydrothermal nanosilica in agricultural crop and biotechnology № 1, p. 22

- M.G.Mustafaev, D.G.Mustafaeva, G.A.Mustafaev**
Formation of the contact-metallization systems with improved technological parameters..... № 2, p. 122
- M.V.Zubasheva, Yu.A.Smirnov, T.A.Smirnova, R.R.Azizbekyan, V.G.Zhukhovitskiy, I.V.Yaminskiy**
Nanostructure of protein crystals of bacteria *Brevibacillus laterosporus* № 2, p. 126
- I.V.Yaminskiy, A.I.Akhmetova, G.B.Meshkov**
Scanning probe microscopy of transition metal dichalcogenides № 2, p. 132
- O.P.Posnanskiy**
Investigation of influence of packing density of axons on diffusivity № 3-4, p. 180
- I.V.Yaminskiy, A.I.Akhmetova, M.A.Pavlova**
Early detection of viral infections using solid-state piezoelectric ceramic biosensors № 3-4, p. 188
- N.N.Gerasimenko, A.G.Turjanskiy, T.V.Kulevoy, O.A.Zaporozhan**
Radiation nanoelectronics: a modern pulse for the appearance and development of new directions of nanoindustry № 3-4, p. 196
- V.N.Zelenkov, V.V.Latushkin, L.G.Eliseeva, I.B.Leonova, V.V.Potapov, M.I.Ivanova, P.A.Vernik**
Hydrothermal nanosilica in the production of environmentally friendly salad products with desired properties in a closed agrobiotechnological system № 3-4, p. 206
- M.D.Andreev, V.A.Kovalev, V.V.Amelichev, S.S.Generalov, A.V.Nikolaeva, S.A.Polomoshnov, A.M.Gaskov, V.V.Krivetskiy**
Synthesis of ultrafine tin dioxide by flame spray pyrolysis for inkjet printing of sensitive elements of gas sensors..... № 5, p. 276
- V.N.Zelenkov, V.V.Latushkin, V.V.Potapov, M.I.Ivanova, B.I.Sanduhadze, P.A.Vernik**
Influence of hydrothermal nanosilica on germination of wheat seeds in the dark mode as one of the methodological aspects of biotechnology for obtaining functional products based on microgreens..... № 5, p. 284
- I.V.Yaminskiy, A.I.Akhmetova**
Probe microscopy in the study of changes in growth, mobility, metabolism and secretion of cancer cells № 5, p. 294
- D.G.Mustafaeva**
Analysis and study of material research and technological factors when creating film converters № 5, p. 304
- V.V.Amelichev, A.A.Reznev, D.V.Vasilyev**
Development of technology of nanostructures with a spin-tunnel magnetoresistive effect № 6, p. 332
- I.V.Yaminskiy, A.I.Akhmetova**
Scanning probe microscopy in solving virology problems № 6, p. 340
- V.N.Zelenkov, V.V.Latushkin, V.V.Potapov, V.V.Karpachov, V.M.Kosolapov, V.T.Sinegovskaya, M.I.Ivanova, A.A.Lapin, P.A.Vernik**
Peculiarities of the concentration effect of hydrothermal nanosilica in the pre-sowing treatment of plant seeds upon indicators of the germinative energy and germinating ability in laboratory dark growth № 6, p. 346
- I.V.Yaminskiy, A.I.Akhmetova**
Digital bionanoscopy platform based on probe microscope № 6, p. 360
- Z.S.Plieva, T.A.Smirnova, M.V.Zubasheva, Yu.A.Smirnov, V.G.Zhukovitskiy, A.I.Akhmetova, I.V.Yaminskiy**
Structure of the *bacillus cereus* sporules exosporium № 7-8, p. 426
- K.S.Kravchuk, I.V.Krasnogorov, A.A.Rusakov, A.S.Useinov**
Investigation of surface hardening effect on the local mechanical properties of the cutting tools working edge № 7-8, p. 434

REPORT FROM PRODUCTION
